Electronic Muscle Stimulation for Beauty

(Model Number: LGT-2320BE) applies low-frequency currents (modulation or non-modulation) to stimulate the motor nerves or muscles to make them contract. After the muscle contractions, the muscle fiber thickens, the weight of the muscle volume increases, the capillaries in the muscle become rich, which strengthen the entire muscle to achieve the effect of lose weight and shaping.

Features

-  Multiple Treatment Areas
-  No any weights during your workout
-  Intensity automatic locking for your safety
-  Non-Invasive , No Downtime
-  45-minutes session can burn up to 1000 calories

Application

- Back of the Chest** **Relaxation Mode**
Build up Muscle, Strengthening and Relaxing
- Upper Arms** **Standard Mode**
Build up Muscle, Strengthening and Toning
- Abdomen** **Abdominals Mode**
Cellulite Reduction, Strengthening and Toning
